Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Self-build and custom build development

Are you building more than nine houses?:
No

Is the total size over 0.5 hectares?:
No

Do all buildings meet the definition of self-build or custom housebuilding as set out in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#)?:
Yes

Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:
No

Please justify the reason why biodiversity net gain does not apply:
The proposal is for a single replacement dwelling at 11 Kingswood Avenue to be constructed as a self-build for the applicants' own occupation (Joseph Campion and Georgia Napper). The development is not for resale as a speculative scheme and therefore qualifies as self-build/custom housebuilding development. The site area is under 0.5 hectares and the proposal is for one dwelling only. Accordingly, mandatory Biodiversity Net Gain is not applicable to this development.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Please state how foul sewage is to be disposed of:

- ☒ Mains sewer

- ☒ Yes
☐ No

If Yes, please provide details:

Refuse storage will be provided within the curtilage of the dwelling, in a convenient and accessible location to the front of the property. Bins will be presented at the frontage on collection days in accordance with the Council's refuse collection arrangements.

Have arrangements been made for the separate storage and collection of recyclable waste?

If Yes, please provide details:

Separate storage for recyclable waste will be provided within the curtilage of the dwelling alongside general refuse storage, with bins presented at the frontage for collection in accordance with the Council's recycling collection arrangements.

Details of the pre-application advice received

Pre-application advice was received from NHDC (ref. 25/02591/PRE) for a replacement dwelling at 11 Kingswood Avenue. The advice focused on ensuring the revised dwelling sits comfortably within the street scene, reducing front projection/visual prominence, improving the relationship to the neighbour through increased side separation, and appropriate treatment of side elevation windows. Sustainability comments were also made including provision of an EV charging point. The scheme has been revised accordingly (including changes to the roof/form and front elevation, relocation/adjustment of massing to the rear, increased side set-down, and window treatment), and the updated drawings and Planning, Design & Access Statement are submitted with this application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
