Subject: Re: Barkway Churchyard

Good afternoon,

I have recommended that the yew tree located at st Mary magdelane church be reduced by 4m in height and 3m in width for the following reasons; tree has become over extended causing several failings within the canopy, a reduction will remove some weight a re- balance the tree and remove some stress from the very low main union. In addition this tree overhangs neighbouring properties potentially causing annoyance.

Kind regards,
Michael,
