Proposal

Replacement building (B1/B2/B8/E) following demolition of fire damaged parts

Recommendation

Notice is given under article 22 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 that Hertfordshire County Council as Highway Authority does not wish to restrict the grant of permission subject to the following conditions:

Conditions:

No development shall commence until a Construction Method Statement has been submitted to and approved in writing by the Local Planning Authority, including elements of the CLOCS standards as set out in the Highway Authority's Construction Management template. Thereafter the construction of the development shall only be carried out in accordance with the approved Plan: The Construction Management Statement shall include details of:

- Access arrangements to the site.
- Traffic management requirements.
- Construction and storage compounds (including areas designated for car parking, loading / unloading and turning areas).
- Siting and details of wheel washing facilities.
- Cleaning of site entrances, site tracks and the adjacent public highway.
- Timing of construction activities (including delivery times and removal of waste) and to avoid school pick up/drop off times.

- Provision of sufficient on-site parking prior to commencement of construction activities.
- Post construction restoration/reinstatement of the working areas and temporary access to the public highway.
- Where works cannot be contained wholly within the site a plan should be submitted showing the site layout on the highway including extent of hoarding which must be kept within the site boundary, pedestrian routes and remaining road width for vehicle movements

Reason: In order to protect highway safety and the amenity of other users of the public highway and rights of way in accordance with Policies 5, 12, 17 and 22 of Hertfordshire's Local Transport Plan (adopted 2018).

HIGHWAY INFORMATIVE:

HCC as Highway Authority recommends inclusion of the following Advisory Note (AN) to ensure that any works within the highway are carried out in accordance with the provisions of the Highway Act 1980.

Storage of materials: The applicant is advised that the storage of materials associated with the construction of this development should be provided within the site on land which is not public highway, and the use of such areas must not interfere with the public highway. If this is not possible, authorisation should be sought from the Highway Authority before construction works commence.

Further information is available via the website

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/highways-roads-and-pavements.aspx> or by telephoning 0300 1234047.

Obstruction of public highway land: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence. Further information is available via the website

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/highways-roads-and-pavements.aspx> telephoning 0300 1234047.

Road Deposits: It is an offence under section 148 of the Highways Act 1980 to deposit mud or other debris on the public highway, and section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available via the website

<https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/highways-roads-and-pavements.aspx> or by telephoning 0300 1234047.

Brief description in support of the proposed development by the applicant:

This Design & Access Statement has been prepared in support of a full planning application at North Herts Council to seek to demolish the fire damaged parts of the building and to erect a replacement modern steel portal frame metal profile clad building.

The existing mixed use office/industrial/storage is to remain within the replaced building to suit the owners.

There is some adjustments to the layout footprint to simplify construction using the portal frame.

The access into the site and various units will be maintained as prior to the fire. Both the north and south side of the building will feature a tarmac apron where parking and deliveries will take place as before.

Highways comments:

From the limited information provided, the proposal is to demolish the fire damaged units in the central core and replace them with new build units and retaining the existing mixed use office/industrial/storage along with parking and deliveries, with some adjustments to the layout footprint.

In view of the information provided the proposal is not expected to have any significant traffic impact on the operation or safety of the highway network than existing.

Recommendation:

No objection subject to the following condition:

Signed

Senober Khan
