CASE REFERENCE NUMBER: 24/01835/FP

Dear Sir

1. The address for the application is wrong as I live at the stated address.
2. We object to the proposal on the grounds stated by **Steven Williamson MBA Dip TP MRTPI an inspector appointed by the First Secretary of State**
Appeal Ref: APP/X1925/A/04/1147003 as this proposal is almost identical to the application (Ref: 03/01375/1).
3. We hope that this proposal does not set a precedent for the demolition of modern farm buildings for housing.
4. We also feel that the high voltage line would be too close to the proposed house, the National Grid removed a tree some years ago as being too close to the high voltage lines.

Yours sincerely

Nigel and Marianne Bowley
