

Key

Proposed Column
Manufacturer: Vamont Station

Material: Galvalised Steel

Height: 1m

Lantern:

Manufacturer: Phillips

Model: Luna Sen 2 Micro

Tilt: 0°

Photometry: 12W

Photometry file: gcpf02.px7m

Driver: DALI2 5-25 CLO_L90_740ies*

PECU: 3 Pin NEMA with 2020 lux sensor

Attachments: None

(All of the above equipment to Herndonshire Council specification)

Proposed column scheme number

P = Proposed Column

EB-N = Proposed New DUNODINO connection

Notes

1. All wiring including component labelling to be in accordance with BS6717.
2. Prior to excavation works the installation contractor must be aware of underground services and indicators of them may be encountered in the ground. If they are encountered, the contractor should be sought from the developers engineering representative.
3. The installation contractor must be aware of any overhead obstructions. Advice should be sought from the developers engineering representative.
