Subject: 2 X DOC's re: Robin Hood and Little John, Rabley Heath Road, Codicote
Importance: High

Hi Thomas,

For ease of reference, I include two elevation extracts below.

I am surprised that there is no specific window/door joinery condition(s) imposed unless Condition 3 is intended to cover this in which case the submitted details are deficient but I am not so sure that the condition is set up for this specific purpose.

- **24/01698/DOC - Details reserved by condition 2 (Method Statement) of listed building consent reference no 24/01010/LBC granted 17.07.2024.**

Prior to the commencement of works to the old stable section, a Method Statement shall be submitted to and approved in writing by the local planning authority. Thereafter the construction of the development shall only be carried out in accordance with the approved Statement. The Method Statement shall address and detail any required works relating to the stable space.

The undated Method Statement received on 31 July 2024 is considered acceptable.

- **24/01783/DOC - Details reserved by condition 3 (Materials) of listed building consent reference no 24/01010/LBC granted 17.07.2024.**

Details and/or samples of materials to be used on all external elevations and the roof of the development hereby permitted shall be submitted to and approved in writing by the Local Planning Authority before the development is commenced and the approved details shall be implemented on site.

It looks as though the main piece of new brickwork is for the construction for the disabled WC. It is unclear as to where new render is to be applied?

Having said that and subject to clarification, the details provided on drawing nos. P10 and P11 received on 31 July 2024 are considered acceptable.
