13TH JULY 2018

Dear Mr.Donovan

Ref.18/01288/FPH

Many thanks for the amendment to the above Plan .
However,we are still not at all happy with the size of the development & especially their measly offer to reduce the depth of the building by 19 inches!!
Secondly, we don't feel there will be very much,if any,benefit in the proposed change of roof Style.
Had the first application been a request to build a ONE storey addition at the rear of the property,we would have had some sympathy about such a proposal.

Therefore we have to request you to reject both 1st and 2nd proposals as set out. ~The resultant outcome would mean a monstrous development in the wrong place..

Thank you.
