Objection to Application 26/00018/FPH

I have read this application and reviewed the site plans supplied with this proposal to erect a detached shed following the demolition of an existing detached shed at 17 High Street Barkway.

I live at 21 High Street Barkway and this proposed structure will be contiguous to my boundary with 17 High Street. I have lived continuously at 21 High Street since July 1993.

I wish to register objections to this application:

1. The plan supplied is factually inaccurate. There has never been a shed at this site adjacent to my boundary and there certainly was no building here c. 2003-4 when working with then owner of 17 High Street we agreed removal and remediation of the boundary hedge dividing our properties.
2. The application is asking to do something which cannot be done. The application states the detached shed will be erected 'following demolition of existing shed'. This is factually inaccurate. There is no existing shed or other structure to be demolished at the site shown (and there has not been one there for at least 32 years).
3. The location of the building is unreasonable. While the owner of no. 17 is entitled to have storage for his belongings on his property, adding this structure at this location is unreasonable. There is a substantial range of storage and other facilities on the northern boundary of the property. Locating this structure related to these would provide a better solution and ensure this structure is not intrusive on the boundaries of related properties.

I would be grateful if these objections can be taken into account in your consideration of this application.

Yours faithfully,

William MacKay
