

SSU Renewables Ltd is a family-owned business formed in 2020, specialising in the design and installation of solar PV (photovoltaic), energy systems, battery storage, and electrical vehicle charging points throughout the UK.

Both directors, Aaron and Danny, have worked in the renewable energy/electrical industry for over 12 years, having worked with some of the biggest solar installation companies in the country.

From site surveys, quotations and installation, through to project handover, you can be confident you'll be working with our expert team, ensuring a friendly, transparent and personal experience.

Our passion and dedication to provide our customers with an exceptional service is the driving force of our business which has seen us go from strength to strength. Having carried out hundreds of installations, SSU Renewables Ltd have a 5 star reputation to shout about!

As quoted by one of our customers, we are " Small Enough to Care, Big Enough to Cope"

SSU Renewables are proud to be Accredited & Certified by:

* NICEIC -Membership Number:NIC600119

* MCS (Microgeneration Certification Scheme)

* TrustMark

* RECC (Renewable Energy Consumer Code) Membership Number: 0072076
