

Thank you for the letter regarding the planning for 1 Cambridge Rd. Unfortunately I do object to a section of it being "Alterations to existing garage including raise roof height, insertion of one side dormer window and three rooflights and a single storey rear extension following demolition of existing shed.

This would severely affect the daylight into my house and the privacy. From the photos you can see that my office window already overlooks the existing garage roof. By raising this and putting in a window it would look directly into my house. From the photos you can already see I have had to put permanent film on my landing window for privacy as it is.

I have also already had an issue with them wanting to cut down my trees – now I am aware why. They have been like this for years and are NOT blocking anyones daylight and they also enhance my privacy. For 1 Cambridge Road to build the garage extension with window, they would no doubt press for my trees (that have been here 20 odd years or more) to be cut down, which I do not consent to.

I will also log onto the North Herts website and object if this is also required on top of my response to this letter. Please can you let me know asap as it closes on the 27th March 26.

If you require any further details please feel free to contact me

Mrs Rachel McCourt

My existing office window – this is a “3rd” floor in my house

This is the landing which I have had to permanently distort their view into my house

Existing trees which have been at my property for years

My office with their existing garage
