To whom this may concern,

I am a yoga therapist and mental health trainer, and I have been a member of HUB since 2022. During this time, I have been consistently aware of the gym operating from its current location and have attended regularly 5 times a week. I have not experienced any issues or disturbances related to noise, traffic, parking, or customer behaviour.

In my experience, HUB is a respectful and well-managed space that fits positively within the local area and compliments surrounding businesses. I fully support the gym continuing to operate from this site, as it provides valuable health and wellbeing services to the community.

Many thanks,

Carly
