To Whom It May Concern,

I am writing to provide my support for HUB Fitness and its continued operation from its current location.

I have been a client of the gym for the past five years and am very familiar with its evolution and role within the local area. I have been aware of HUB operating from its current premises for approximately the last 12 months.

During this time, I have not experienced any issues or disturbances arising from the gym's operation. On the contrary, the improved access and parking arrangements at this location have contributed to a noticeably safer environment for members, particularly for single female members. This represents a significant improvement compared to the previous location, where access and parking were more challenging.

I strongly believe the gym fits exceptionally well within the local area and complements the surrounding businesses and services. A number of members regularly utilise nearby childcare and other local amenities, and HUB has created a genuine sense of community for over 150 local residents from Hitchin and surrounding areas. It has also become a valuable point of connection for new residents, helping them establish friendships and social networks within the community.

I fully support HUB Fitness continuing to operate from this site. The team has clearly built an inclusive, welcoming environment that caters to members of all ages and backgrounds, and their presence has been a positive asset to the area.

Yours faithfully,

Philip Oram
Regional Director UKI
