

This architectural elevation drawing shows a two-story building with a brick lower level and a stucco upper level. The roof is made of corrugated metal and features a chimney. The drawing includes horizontal and vertical lines indicating levels and sections.

This architectural elevation drawing shows a two-story house with a symmetrical design. The roof is gabled with a central ridge. On the left side, a tall chimney rises from the roofline. The upper floor features three windows: a large multi-paned window on the left, a smaller multi-paned window in the center above the door, and another large multi-paned window on the right. The lower floor has a large multi-paned window on the left, a central door with a small transom window, and a large multi-paned window on the right. The house is set on a flat ground line with a dark base. To the left and right of the house are simple vertical lines representing utility poles or markers.
