Notice of works occurring under Part 8, Class A of the Town and Country Planning (General Permitted Development) (England) Order 2015 at Royston Station, Royston

RJP town planners ('RJP') is writing to North Herts Council ('the Council') on behalf of Govia Thameslink Railway ('GTR') and in consultation with Network Rail ('NR') to give notification of permitted development works occurring at Royston Station.

Under Part 8, Class A of Town and Country Planning (General Permitted Development) (England) Order 2015, development by railway undertakers on their operational land, required in connection with the movement of traffic by rail, is permitted development. Reconstruction or alteration of a building or structure where its design or external appearance would be materially affected is permitted where said structure is located wholly within a railway station. It is standard practice that the boundary of a railway station is defined as the station lease area. All works will occur within the station lease area (Figure 1) and therefore the proposal is permitted under Part 8, Class A.

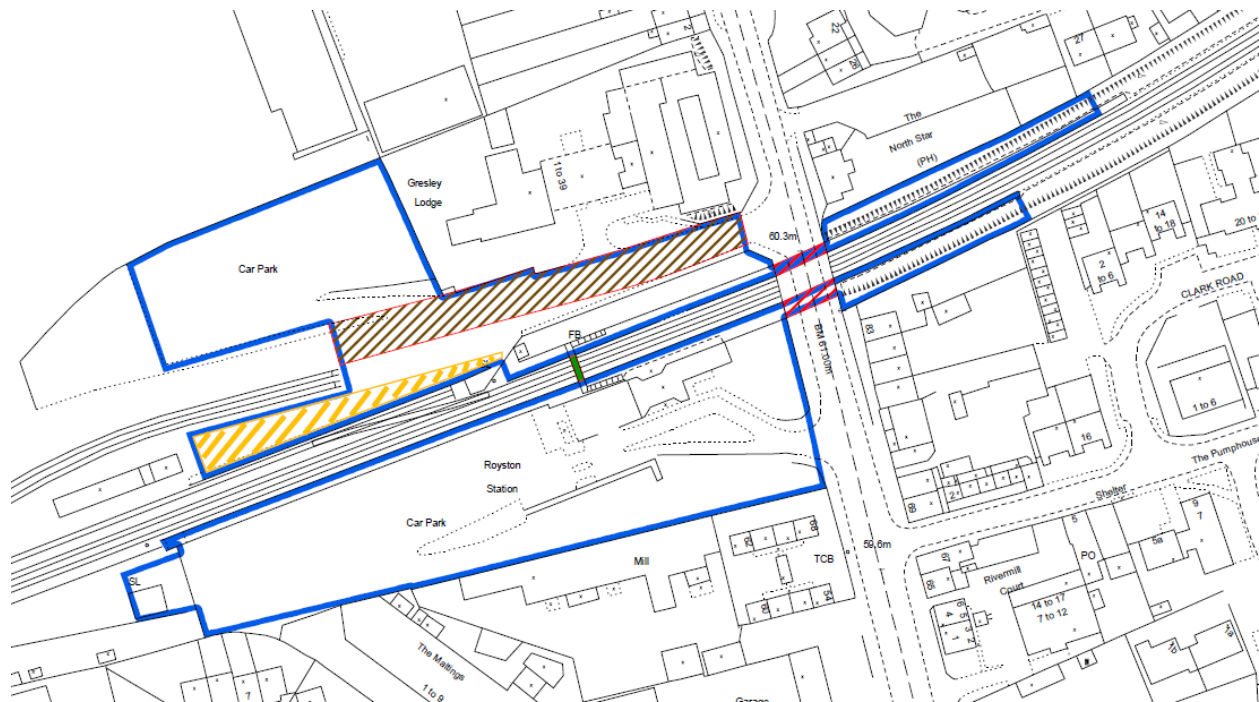

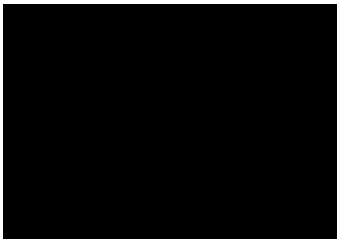

Figure 1 - Location of proposed works (yellow hatch) within station lease (blue line)

The purpose of the works is to secure the station entrance, reduce anti-social behaviour and improve revenue protection. A full schedule of works has not yet been finalised but can be summarised as follows:

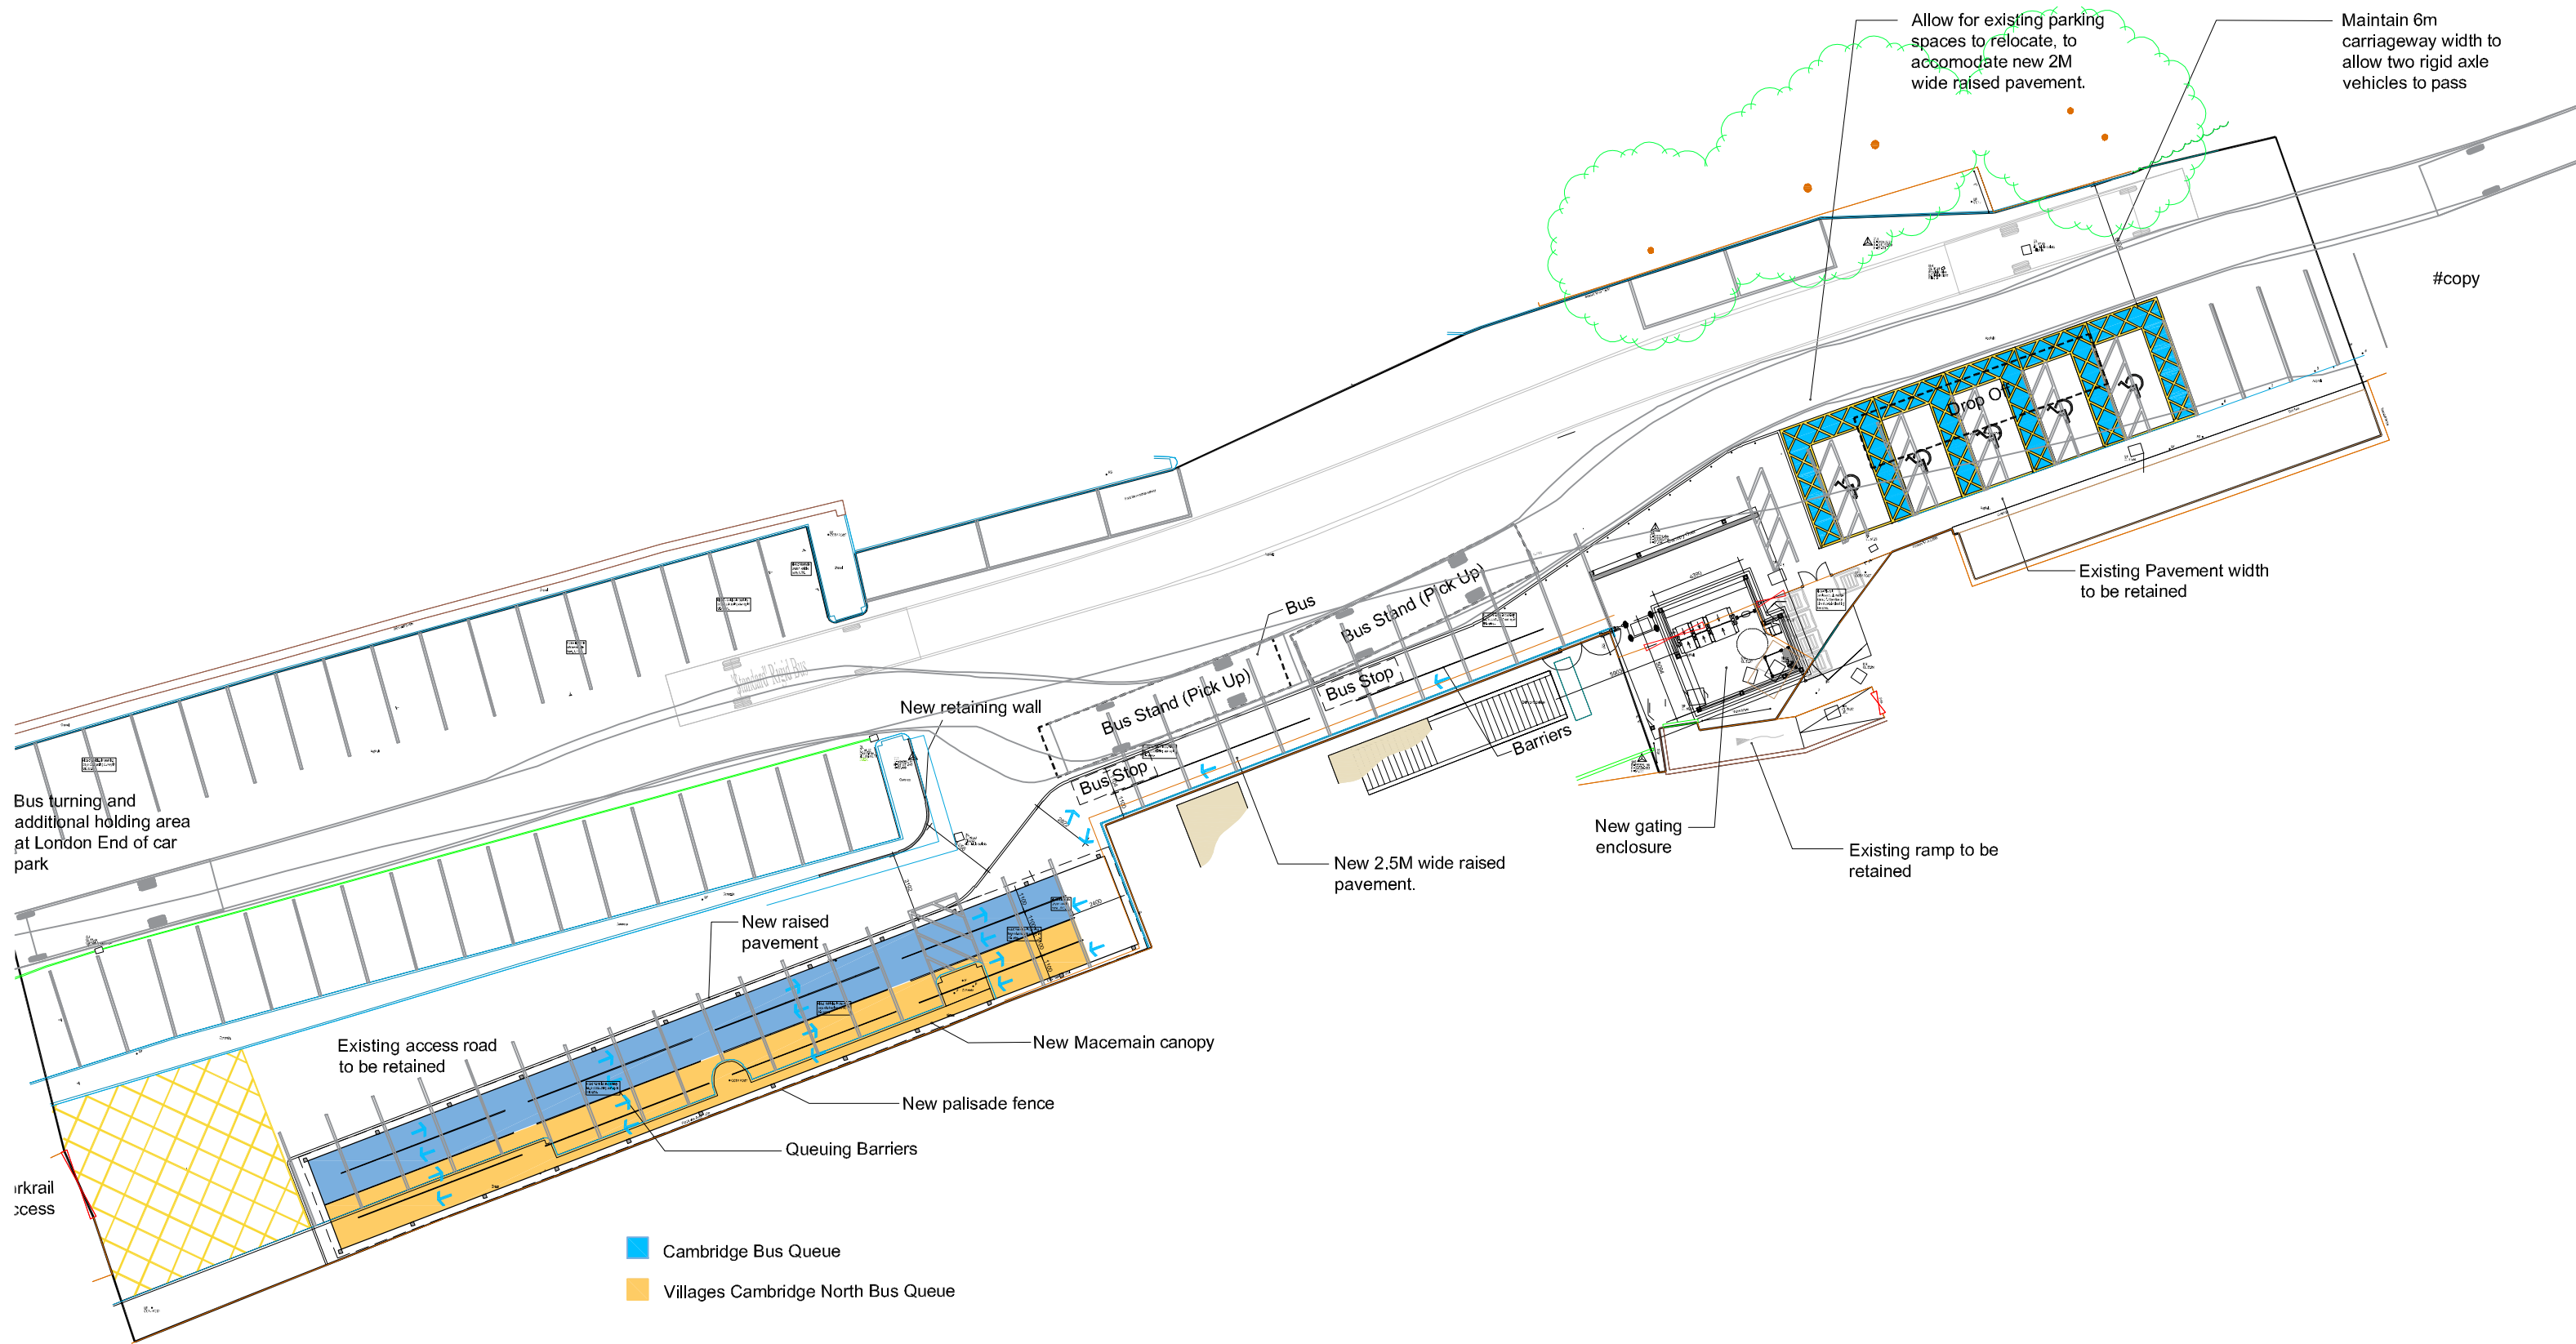

- Erect a new gating enclosure with a canopy cover at the secondary entrance of the Station located at the rear of Platform 2, comprising two standard-sized ticket gates and one wide aisle gate;
- A new rail replacement bus facility at the existing parking bays in front of the lift at Platform 2, comprising two to three Macemain canopies as passenger waiting shelters and queuing barriers;
- Ancillary works including a new side gate east of the proposed gatelines to segregate the refuse compound from the public area, and a side gate to the west for emergency access during non-operational hours of the Station;
- Other adjustments and improvements to the existing car park north to the Station, including widening the footpath to comply with the Disability Discrimination Act (DDA) standards.

Please find enclosed a copy of the draft proposal plans and station lease area plan. If you have any questions, please do not hesitate to contact me.

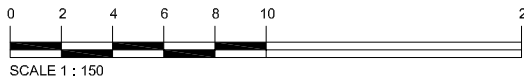

Yours sincerely,

Marc Zablotny
Senior Planner, MRTPI
