

Quotation

Dated: 5th March 2025

Customer Address:

Melissa Molina
61 Bedford Road
Hitchin
Hertfordshire
SG5 2TU

For: Multiple Tree Works with Green Waste Processing

Item	Description of Work
1	T1 and T2: The 7.5-meter-tall (approx.) Cotoneaster (Rosaceae Cotoneaster) and Japanese Spindle (Euonymus Japonicus) to undergo up to 30% crown reduction (2-meters) with the branches overhanging the patio trimmed back. The aim will be to tidy these trees up whilst reducing the amount of sap on the patio
2	T3: The 8-meter-tall Paper Birch (Betula Pubescens) to undergo a crown reduction of the top 1-meter to help maintain the height within the garden. Option to cut back the lowest limb.
3	T4: The 4.5-meter-tall Bay (Laurus Nobilis) to be shaped and tidied with the top long branches reduced in height (1-meter) T5: The 5 -meter-tall Cherry Laurel to undergo a light crown reduction (1-meter) to shape and keep the height manageable.
