

Fencing and Retaining Boards

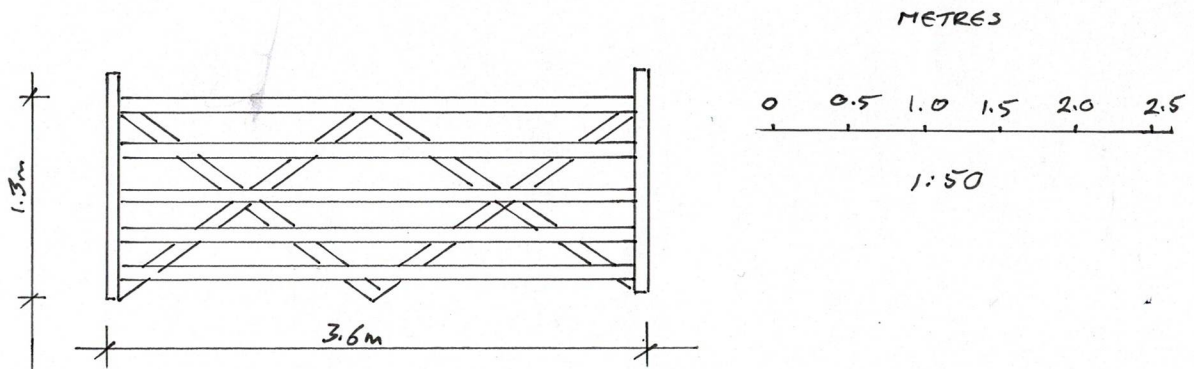

Fencing consists of 2 no. 175mm x 75mm timber fence posts at corner positions and 75mm x 125mm infill posts at 1.8m centres (6 ft to allow standard rail lengths to be used). Posts extend 1.5m above the finished surface. 3 horizontal rails added as infill. Horizontal rails to be min 100mm x 38mm.

150mm x 38mm treated timber retaining boards to be placed vertically at ground level to retain the stone with another 150mm x 38mm treated timber retaining board above, butted up, to retain the surface.

Gate posts to be 175mm x 175mm minimum – 2.4m long and extend 1.5m above the finished surface.

Typical Post and Rail Fencing 1:50

Typical 5 Bar Gate – 3.6m Wide 1:50

This drawing has been prepared for Planning Permission purposes and should be read in conjunction with all the drawings in the series 2025/387/01-05, the Design and Access Statement and Ecological Reports. All dimensions and setting out to be confirmed on site and any discrepancies reported to the designer.
