Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The pavilion building is on parish council land and has been in community use for approximately 20 years. North Herts Council Planning Department were consulted informally on the proposal to install 12 no. photovoltaic panels and recommended that a Certificate of Lawfulness be applied for ensuring that the installation meets criteria stipulated in their email dated 9 September 2025, (see attached and below).

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Information about the proposed use(s)

Is the proposed operation or use

☒ Permanent

☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The proposed location of the photovoltaic panels is on the south facing roof of the single storey building, which faces an adjacent farmer's field and is behind a large hedge. The panels will not be able to be seen from the village therefore the installation meets NHDC first condition "... to minimise their visual impacts on the external appearance of the building"

In accordance with NHDC's second condition, the panels will be removed as soon as possible when they are no longer needed.

Kimpton Parish Council are keen for this installation to proceed as grant funding has been awarded by NHDC for the installation of these photovoltaic panels to help reduce the impacts of climate change and energy costs.
