Dear Paul,

Re: Details reserved by condition 3 Part A (Archaeological Written Scheme of Investigation) of planning permission reference 24/02333/FP granted 09.07.2025 .| Land Between Priory Farm And Wymondley Substation Blakemore End Road Little Wymondley Hertfordshire

ARCHAEOLOGICAL IMPLICATIONS

Thank you for consulting us on the above application.

The applicant has submitted an archaeological WSI.

We have the following comments:

- we require c.v.s of the onsite staff to be submitted for approval, although this may be done after the WSI has been approved on the understanding fieldwork will not commence until they have been agreed, so this should be stated in the WSI
- there should be confirmation that the specialists listed in the document have experience of Hertfordshire or the local area (the archaeological company is based in Lincolnshire)

Therefore, **we do not yet recommend that condition 3 part A is fully or partially discharged** nor that any onsite archaeological works commence.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Andy Instone
Senior Historic Environment Advisor, Hertfordshire LEADS
Environmental Sustainability

Hertfordshire LEADS provides Landscape, Ecology, Archaeology, Design and Sustainability support to planning departments in Hertfordshire.
