Application to determine if prior approval is required for a proposed: Erection, Extension or  
Alteration of a Building for Agricultural or Forestry use

The Town and Country Planning (General Permitted Development) (England) Order 2015 (as  
amended) - Schedule 2, Part 6

**Publication of applications on planning authority websites**

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

**Site Location**

**Disclaimer:** We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

## The Proposed Building

Please indicate which of the following are involved in your proposal

- ☒ A new building  
☐ An extension  
☐ An alteration

Please describe the type of building

The proposed agricultural building will be 330 sq m in floorspace, with an additional hard standing area and concrete apron surrounding it creating 756 sq m of development. The building form is simple and rectangular measuring 17.00 metres (length) by 20.00m (width). The roof will be pitched at 12.5 degrees with a ridge height of 9.46 metres and the eaves height 7.5 metres. The front elevation will include a two-metre roof overhang to create 40 sq m of covered area at the front to ensure the barn remains dry and to shelter cattle inside.

Please state the dimensions of the building

Length

19

metres

Height to eaves

7.5

metres

Breadth

20

metres

Height to ridge

9.46

metres

Please describe the walls and the roof materials and colours

**Walls**

Materials

External colour

Dark Grey  
Juniper Green (Dark Green)

Galvanized steel portal frame.  
Concrete panelling lower wall (3.6m height)  
Profile plastisol wall cladding (3.9m height)

## Roof

Materials

Fibre Cement Roofing

External colour

Grey

Has an agricultural building been constructed on this unit within the last two years?

☐ Yes

☒ No

Would the proposed building be used to house livestock, slurry or sewage sludge?

☒ Yes

☐ No

If Yes, will the building be more than 400 metres from the nearest house excluding the farmhouse?

☐ Yes

☒ No

Would the ground area covered by the proposed building exceed:

- 1,000 square metres (if relying on the temporary provision to use the permitted development rights as they stood prior to 21 May 2024)

- 1,250 square metres (where the agricultural unit is under 5 hectares)

- 1,500 square metres (where the agricultural unit is 5 hectares or more)

☐ Yes

☒ No

**NOTE:** If the ground area covered exceeds the square metre limit it will not qualify as Permitted Development and an application for Planning Permission will be required.

Has any building, works, pond, plant/machinery, or fishtank been erected within 90 metres of the proposed development within the last two years?

☐ Yes

☒ No

Would the erection, extension, or alteration be carried out on land or a building that is, or is within the curtilage of, a scheduled monument?

☐ Yes

☒ No

## The Site

What is the total area of the entire agricultural unit? (1 hectare = 10,000 square metres)

32.9

Scale

Hectares

What is the area of the parcel of land where the development is to be located?

Less than 0.4

Hectares

**How long has the land on which the proposed development would be located been in use for agriculture for the purposes of a trade or business?**

Years

70

Months

0

Is the proposed development reasonably necessary for the purposes of agriculture?

☒ Yes

☐ No

If yes, please explain why

Lilley Bottom Farm is a working farm and has been for many years. The holding has been farmed by the Andrews family on a tenancy since 1955. The current tenant Simon Andrews is a long-standing tenant of The Crown Estate, building upon the farming legacy his father created at Lilley Bottom. The agricultural holding comprises some 32.96 hectares (81.46 acres) of agricultural land. However, R E Andrews farms approximately 809 hectares (2000 acres) under tenancies. The farmland is in a mix of arable cultivations to produce grain (wheat, barley etc.), straw bales as well as being used for the grazing of cattle. A small area is under pasture and used for equestrian grazing.

The farming business is looking to expand its production capacity particularly in relation to their cattle enterprise and require a new barn to cater for this. There are several existing agricultural barns/buildings in the yard. However, most of these were constructed many years ago (1970/80s) and are now not large enough to safely manoeuvre modern agricultural machinery into them, nor large enough to accommodate expanding the cattle herd. The modern buildings on site are already being used to their maximum grain and hay storage capacity. Therefore, a new dual purpose agricultural building is required, which will allow for increased onsite grain storage capacity during the summer and autumn months. In the winter and spring (November – May) the building can be utilised to house cattle.

Without sufficient future grain storage capacity, the farming business may be required to pay for grain storage off site which can be expensive and add haulage and hire costs to the business. Alternatively, they may be forced to sell their crop straight from the field which would result in the business achieving a much lower price per ton for the grain.

Additionally, the farming business currently houses most of the cattle away from the main farmyard, which during calving can make taking care of the animals harder during the evenings and overnight. Having the cattle located close to the farmhouse is essential to facilitate a much smoother calving process.

Is the proposed development designed for the purposes of agriculture?

☒ Yes

☐ No

If yes, please explain why

The proposed agricultural building will be 330 sq m in floorspace, with an additional hard standing area and concrete apron surrounding it creating 756 sq m of development. The building form is simple and rectangular measuring 17.00 metres (length) by 20.00m (width). The roof will be pitched at 12.5 degrees with a ridge height of 9.46 metres and the eaves height 7.5 metres. The front elevation will include a two-metre roof overhang to create 40 sq m of covered area at the front to ensure the barn remains dry and to shelter cattle inside.

The proposed agricultural building will be steel framed with a conventional agricultural appearance. The elevations (apart from the front elevation which will be open-sided) will be clad in profiled plastisol wall cladding (colour Juniper Green) and concrete panel walling. The pitched roof will be clad in grey fibre cement corrugated sheeting interspersed with roof light panels.

The proposed siting is within the existing agricultural compound surrounded by established hedgerows. The site is located off Lilley Bottom Road and is within a parcel of land of 32.96 hectares (81.34 acres) forming part of the agricultural holding. This siting was chosen because it is within the longstanding compound with existing agricultural buildings. The proposed barn would be entirely in keeping with the existing buildings. The site is also partially screened from the road by established trees, greenery and an existing landscaped bund, thus reducing its visibility from the roadside. Please refer to the submitted photographs.

Does the proposed development involve any alteration to a dwelling?

☐ Yes

☒ No

Is the proposed development more than 25 metres from a metalled part of a trunk or classified road?

- ☒ Yes  
☐ No

What is the height of the proposed development?

9.4

Metres

Is the proposed development within 3 kilometres of an aerodrome?

- ☐ Yes  
☒ No

Would the proposed development affect an ancient monument, archaeological site or listed building or would it be within a Site of Special Scientific Interest or a local nature reserve?

- ☐ Yes  
☒ No

## Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☒ Yes  
☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- ☒ The agent  
☐ The applicant  
☐ Other person

## Declaration

I/We hereby apply for Prior Approval: Building for agricultural/forestry use as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

☒ I / We agree to the outlined declaration

Signed

Eleanor Willlats
