

EXISTING WINDOWS 6 & 7

Two first floor windows on the rear elevation are timber framed double glazed units.

Window 7.
W7

Windows 6 and 7.
Rear elevation.
Ground floor

These timber single glazed sash windows are relatively recent replacements. There are no stone sills, simply modern tiled sills. These windows have been brought forward with architrave style beading to infill between the window and the brickwork. There are no historic timber lintels above these windows. The pointing adjacent these windows is generally modern sand and cement, rather than traditional lime mortar.
