Discussion about best approach to amend various plans and enable pumping station to be relocated (as originally intended) wholly within the Infrastructure RM redline and approve above ground details of it - it was confirmed that a S96a to amend the wording of the condition (s) first was appropriate, then as part of the DOC of the conditions, the details can be submitted and existing plans alter accordingly.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
