

Highfield House.

28 Hitchin Rd

Letchworth Garden City,

SG6 3LU

8th August 2025

Dear North Herts Council,

We wish to object to Highfield School installing two all-weather football pitches which will not just be for pupils but for any outside user. The impact on the residential properties nearby is going to be very detrimental. Floodlights and noise will be of considerable nuisance to residents, as well as increased traffic flow on Highfield which is at present, a quiet residential road. Highfield already has to contend with a lot of traffic at certain times during the day, due to the two schools which at times causes a bottleneck of traffic.

This project is also a clear change from educational to commercial use in an area which is totally unsuited.

Letchworth Garden City is already well served with sports facilities. Also the sports facilities at present in the town are distanced from residential properties and have well controlled car parks unlike this proposed commercial venture.

Yours sincerely

Mary Cox and Alan Cox
