Morning Gina

Thank you, I have updated the file with the new information received this morning.

Please can you confirm you agree with the amended description of works below.

Replace 9no. existing timber framed, single-glazed, leaded-light windows on the rear elevations (north and east) with Upvc wood effect, double-glazed, faux leaded-light windows.

Once I hear back from you, I will be able to register your application.

Many thanks
