- 1 Conservation rooflights
- 2 Remove/alter roof truss member with Structural Engineer's advice.
- 3 Install breathable woodfibre insulation between roof joists with lime plaster finish. Maintaining visibility of most joists, all purlins and truss framing.
- 4 Install partition walls to create bathroom space
- 5 Timber staircase to loft space
- 6 Non useable space under eaves but left open to retain historic loft space volume
- 8 Move existing water tanks/replace in new location at side of bathroom.
- 9 40mm insulating lime plaster to inside face of render carrier boards leaving timber studs visible (rear wall)
- 10 Install salvaged hardwood door to corridor as Fire Door with partition wall around. Located on beams.

- Notes**
1. This drawing remains copyright of Blake Architects Limited and may not be reproduced or copied without consent in writing.
 2. For construction use figured dimensions only.
 3. Any discrepancies between site and drawings to be reported to the architect immediately.
 4. Read in conjunction with all relevant structural and mechanical & electrical engineers drawings.
 5. Survey undertaken by:
