Area manager: Manjinder Sehmi
Case officer: Shamsul Huda

Location

35 Grays Lane, Hitchin, Hertfordshire, SG5 2HH

Application type

Full Application

Proposal

AMENDED/ADDITIONAL INFORMATION

Full Planning Permission : Erection of one self-build dwelling including basement level and first floor area balcony area. Installation of external swimming pool, garden kitchen structure and pergola, external air source heat pump and associated hard and soft landscaping works including perimeter boundary fence, wall and gates following demolition of existing dwelling. Alterations to ground levels in rear garden

Recommendation

Notice is given under article 22 of the Town and Country Planning (Development Management Procedure) (England) Order 2015 that Hertfordshire County Council as Highway Authority does not wish to restrict the grant of permission subject to the following conditions:

CONDITION: PROVISION FOR CTMP:

No development shall commence until a Construction Traffic/Environmental Management Plan has been submitted to and approved in writing by the Local Planning Authority. Thereafter the construction of the development shall only be carried out in accordance with the approved Plan. The Construction Traffic Management Plan shall include details of:

- a. Construction vehicle numbers, type, routing.
- b. Access arrangements to the site.
- c. Measure to minimise dust, noise machinery and traffic noise impacts during construction.
- d. Screening and hoarding details to protect neighbouring residents.

- e. Traffic management requirements, including the location of routes and from the site, details of their signing monitoring and enforcement measures.
- f. Construction and storage compounds (including areas designated for car parking, loading /unloading and turning areas);
- g. Siting and details of wheel washing facilities.
- h. Cleaning of site entrances, site tracks and the adjacent public highway including end of day tidying procedures to ensure protection of the site out the hours of construction. The construction activities shall be designed and undertake in accordance with the code of best practice set out in BS 5228 1997 and the agreed details unless otherwise agreed in writing by the LPA and Highways.
- i. Timing of construction activities (including delivery times and removal of waste) and to avoid school pick up/drop off times.
- j. Provision of sufficient on-site parking prior to commencement of construction activities.
- k. Post construction restoration/reinstatement of the working areas and temporary access to the public highway.
- l. where works cannot be contained wholly within the site a plan should be submitted showing the site layout on the highway including extent of hoarding, pedestrian routes, and remaining road width for vehicle movements.

Reason: In order to protect highway safety and the amenity of other users of the public highway and rights of way in accordance with Policies 5, 12, 17 and 22 of Hertfordshire's Local Transport Plan (adopted 2018).

INFORMATIVES

AN) Extent of Highway: Information on obtaining the extent of public highway around the site can be obtained from the HCC website: www.hertfordshire.gov.uk/services/highways-roads-and-pavements/changes-to-your-road/extent-of-highways.aspx

AN) Obstruction of highway: It is an offence under section 137 of the Highways Act 1980 for any person, without lawful authority or excuse, in any way to wilfully obstruct the free passage along a highway or public right of way. If this development is likely to result in the public highway or public right of way network becoming routinely blocked (fully or partly) the applicant must contact the Highway Authority to obtain their permission and requirements before construction works commence. Further information is available via the County Council website at: <https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/business-licences/business-licences.aspx> or by telephoning 0300 1234047.

AN) Debris and deposits on the highway: It is an offence under section 148 of the Highways Act 1980 to deposit compost, dung or other material for dressing land, or any rubbish on a made up carriageway, or any or other debris on a highway to the interruption of any highway user. Section 149 of the same Act gives the Highway Authority powers to remove such material at the expense of the party responsible. Therefore, best practical means shall be taken at all times to ensure that all vehicles leaving the site during construction of the development and use thereafter are in a condition such as not to emit dust or deposit mud, slurry or other debris on the highway. Further information is available by telephoning 0300 1234047.

AN) Construction Management Plan (CMP): The purpose of the CMP is to help developers minimise construction impacts and relates to all construction activity both on and off site that impacts on the wider environment. It is intended to be a live document whereby different stages will be completed and submitted for application as the development progresses. A completed and signed CMP must address the way in which any impacts associated with the proposed works, and any cumulative impacts of other nearby construction sites will be mitigated and managed. The level of detail required in a CMP will depend on the scale and nature of development.

The CMP would need to include elements of the Construction Logistics and Community Safety (CLOCS) standards as set out in our Construction Management template, a copy of which is available on the County Council's website at: <https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/development-management/highways-development-management.aspx>

COMMENTS:

Key documents and policy use to assess the application are.

1. National Planning Policy Framework (August 2026).
2. HCC's Place & Movement Planning Design Guidance adopted in March 2024
3. Hertfordshire County Council's (HCC) Local Transport Plan-4 [2018-2031, May2018]
4. HCC's Dropped Kerb Policy May -2024
5. Manual For Street (MfS1 2007)
6. North Herts Local Planning policy [2011-2031]

Following the Highway Authority's comments dated 29th July 2026 the applicant has submitted amended drawings including the Existing and Proposed Plans. The revised existing and proposed plan (Ref- I30-A) confirmed that no new brick wall and access gate is proposed which means the no changes are proposed to the existing access points in terms of gate or boundary walls.

The highway considers that the proposal of re development of site would not generate significant additional trips to the site. Therefore, taking all into a count, the highway does not wish to raise objection to development subject to the condition and highway informative.

Signed

Shamsul Huda
