

## NOTES:

This drawing is not a working drawing, and is only for the purpose of the following:

A. Naming Substation

The main contractor is responsible for forming the substation layout, and for the relationship between, this drawing and any other relevant documents.

All existing walls, foundations and levels or other structural items are to be confirmed back before starting work. The contractor is to ensure that there is no relevant point to work commencing.

Any existing walls to be removed are to be confirmed from a buildinging point to removal.

Buildings, angles, and dimensions are to be checked by the main contractor prior to work commencing.

Vehicle dimensions are to be used from the following table:

| Vehicle      | Dimensions  |
|--------------|-------------|
| Light truck  | 3.0m x 2.0m |
| Medium truck | 3.5m x 2.5m |
| Heavy truck  | 4.0m x 3.0m |

Note: These plans have been prepared based on the assumption that the contractor is responsible for any errors or discrepancies that may arise from the drawings. The contractor is responsible for any errors or discrepancies that may arise from the drawings and for any relevant point to work commencing and for any relevant point to work commencing and for any relevant point to work commencing.
