2 March 2026

Dear Mr Glover,

Updated transport and highways submissions**25/01947/FP: Battery Energy Storage System (BESS), ground mounted solar farm, associated infrastructure, access and landscaping****Land South of A507, near Cumberlow Green, Clothall Road, Clothall**

Following the comments received from Hertfordshire County Council (HCC) dated 26th September 2025 in relation to the submitted Transport Statement (TS) and Construction Traffic Management Plan (CTMP), we are pleased to be able to submit a response and an updated CTMP

The following documents accompany this covering letter:

- Construction Traffic Management Plan, revision 4, February 2026 (Andrew Moseley Associates)
- Highways Technical Note, February 2026 (Andrew Moseley Associates)

Recognising the concerns raised by HCC relating to the Secondary Access Point, the Applicant has reviewed the transport requirements for the construction period. The Applicant wishes to revise the proposal to make clear that this access will not be used for any traffic other than as a back-up emergency access. The tracking for this access shown in Appendix D of the CTMP is based on a standard fire appliance.

Yours sincerely,

Aidan Van de Weyer
Associate Planner
