Subject: Re: Invalid Notification for Application No 24/02661/FP

Good Afternoon, Allison.

Apologies. I copied across a previous application when the application was not the sole owner of the land and didn't change the notice. In this case they are the owner and therefore I should have completed certificate A. I tried to change it but it is locked, let me know the best way to rectify it. With regards the Air Source Heat Pump, I am not really qualified to specify the appliance so I have added a note which is compliant with PD rights and once the detailed design is completed if this is any different, they can apply for a variation.

The note reads "AIR SOURCE HEAT PUMP INSTALLATION COMPLIES WITH THE MICROGENERATION CERTIFICATION SCHEME PLANNING STANDARDS (MCS 020) AND NOT EXCEEDING 0.6 CUBIC METRES." Is this OK?

Thanks
