Application consultation response

Application reference:	25/00106/LBC
Site:	Walnut Tree Farm Luffenhall Stevenage SG2 7PX
Proposal	Replacement front and rear side dormer windows with pitched roofs above
Action required prior to determination:	No (see below)

Summary

There are no objections to the proposed replacement of flat roof dormers for pitched roof dormers as the existing dormers are later non historic fabric.

Heritage Assets

Listed Building

Discussion

The historic significance of this property lies in the medieval hall house with constitutes the main front of the house.

The three flat roof ed rear dormers are within the late rebuilt rear wing of the property and therefore replacing these with pitched roof dormers would not see the loss of historic fabric of high significance.

The replacement of the three existing front dormers are also considered to be later fabric possibly within historic openings. There are no objections to the replacement of these flat roof dormers with pitched roof dormers. However. as pointed out in the Heritage Statement at dislodged tiles will need to be replaced on like for like basis.

The tiles for the new pitched roof dormers should be hand made plain clay tiles.

Conditions

Details and/or samples of materials to be used for the works, hereby granted consent, shall be submitted to and agreed, in writing, by the Local Planning Authority before any works are commenced.

Reason: To safeguard the character and appearance of the listed building to which this consent relates and to comply with Policies SP13 and HE1 of the North Hertfordshire Local Plan 2011 to 2031.

Full joinery details of the proposed new timber windows to a metric scale and 1:1 scale drawings of the proposed glazing bars hereby granted consent, shall be submitted to and agreed, in writing, by the Local Planning Authority before any works are commenced/prior to manufacturing of the doors.

Reason: To safeguard the character and appearance of the listed building to which this consent relates and to comply with Policies SP13 and HE1 of the North Hertfordshire Local Plan 2011 to 2031.

Heritage Policy Assessment

The Planning (Listed Building and Conservation Areas) Act 1990

Section 26H of the Planning (Listed Buildings and Conservation Areas) Act 1990 or Sections 16 (1) & 72 (1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 and as supported by the aims of the NPPF.

The Local Plan and NPPF

North Hertfordshire Local Plan 2011-2031 and the policies contained within it i.e., Policy HE1. The plan was adopted November 2022.

The relevant paragraph numbers at Section 16 of the July 2021 version of the NPPF have been changed as follows:

197. In determining applications, local planning authorities should take account of:

- a) the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;*
- b) the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and*
- c) the desirability of new development making a positive contribution to local character and distinctiveness.*

199. When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance.

200. Any harm to, or loss of, the significance of a designated heritage asset (from its alteration or destruction, or from development within its setting), should require clear and convincing justification.....

202. Where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.

206. Local planning authorities should look for opportunities for new development within Conservation Areas and World Heritage Sites, and within the setting of heritage assets, to enhance or better reveal their significance. Proposals that preserve those elements of the setting that make a positive contribution to the asset (or which better reveal its significance) should be treated favourably.

The Setting of Heritage Assets: Historic Environment Good Practice Advice in Planning Note 3 (Second Edition) – December 2017

At para 14 under the sub-heading 'Landscape Assessment and Amenity' it states that "*Analysis of setting is different from landscape assessment. While landscapes include everything within them, the entirety of very extensive settings may not contribute equally to the significance of a heritage asset, if at all. **Careful analysis is therefore required to assess whether one heritage asset at a considerable distance from another, though intervisible with it – a church spire, for instance – is a major component of the setting, rather than just an incidental element within the wider landscape.***"

At para 17 it states (my emphasis in bold): "*All heritage assets have significance, some of which have particular significance and are designated. The contribution made by their setting to their significance also varies. **Although many settings may be enhanced by development, not all settings have the same capacity to accommodate change without harm to the significance of the heritage asset or the ability to appreciate it.** This capacity may vary between designated assets of the same grade or of the same type or according to the nature of the change. It can also depend on the location of the asset: an elevated or overlooked location; a riverbank, coastal or island location; or a location within an extensive tract of flat land may increase the sensitivity of the setting (i.e. the capacity of the setting to accommodate change without harm to the heritage asset's significance) or of views of the asset. This requires the implications of development affecting the setting of heritage assets to be considered on a case-by-case basis.*"

Conclusion

The proposals would preserve the architectural and/or historic interest of the listed building and therefore complies with sections 16 (1) of the Act.

There is/are **NO OBJECTION/S**. The scheme will satisfy the provisions of Sections 16(1) and 72(1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 and the aims of Section 16 of the NPPF and Policy HE1 of the North Hertfordshire Local Plan 2011-2031.
