Air Source Heat Pump Compound Design & Access Statement

Dated: 1/6/26 (v01)

Design & Access Statement

Bedford Road Health Centre Air Source Heat Pump Compound

This Design & Access Statement is in relation to the installation of new specialist acoustic enclosure for the proposed new air source heat pump that is to serve the Bowling Road Health Centre.

General Statement

Bedford Road Health Centre is a NHS out patient and day centre managed by the Hertfordshire Community NHS Trust.

Design Statement

The proposed compound is to provide a secure and safe area adjacent to the plant room.

The ASHP acoustic compound will be will be formed using the specialist acoustic panels and as detailed on the specialist drawings, adjacent to this compound will be a metal perforated fence enclosing the bin storage area.

The proposed compound will not affect pedestrian or vehicular access to and from the Bowling Road Health Centre.
