Details of the pre-application advice received

There is no objection to the site being used for residential re-development with the retail use being retained at ground floor level on the High Street as this is a town centre site, and it is in the interest of both national and local planning policies to situate new housing within existing urban areas.

The Principal Planning Officer advises, along with the Conservation Officer, that more open and green spaces are added to the development plans, and that the scale and density of the proposed development is concerning as it is not in keeping with the existing character around it. Additionally, the proposed walkway needs to be accessible and attractive to users in accordance with Hertfordshire County Council Highways emphasis on sustainable walking routes.

The Officer advises that there is room to reduce parking standards due to the town centre location, so one parking space per unit with the cycle parking provided would be sufficient.

Mitigation should be considered in order to make a positive contribution to the mitigation of the climate emergency in light of the Climate Emergency motion passed by North Hertfordshire District Council pledging to achieve zero carbon emissions in the County by 2030. This includes the provision of green spaces and increasing sustainability.

Summary of points received:

Presumption to retain retail use at ground floor on the High Street

No objection in principle to residential development in the town centre given the sustainable location

Concerned about the scale and mass of proposal, which was seen to be contrary to the character of conservation area and proximity of listed buildings

Concerned about the lack of amenity space for new residents

Seeking to retain walk through the site

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
