

Schwegler 1FD Bat Box

Developed specifically for smaller bats, such as Common Pipistrelle and Brown Long-eared Bat, featuring two roughened wooden interior panels and an increased interior height.

Dimensions; Diameter: 160mm, Height: 360mm
Material: Woodcrete

CJ Elba Invertebrate Tower

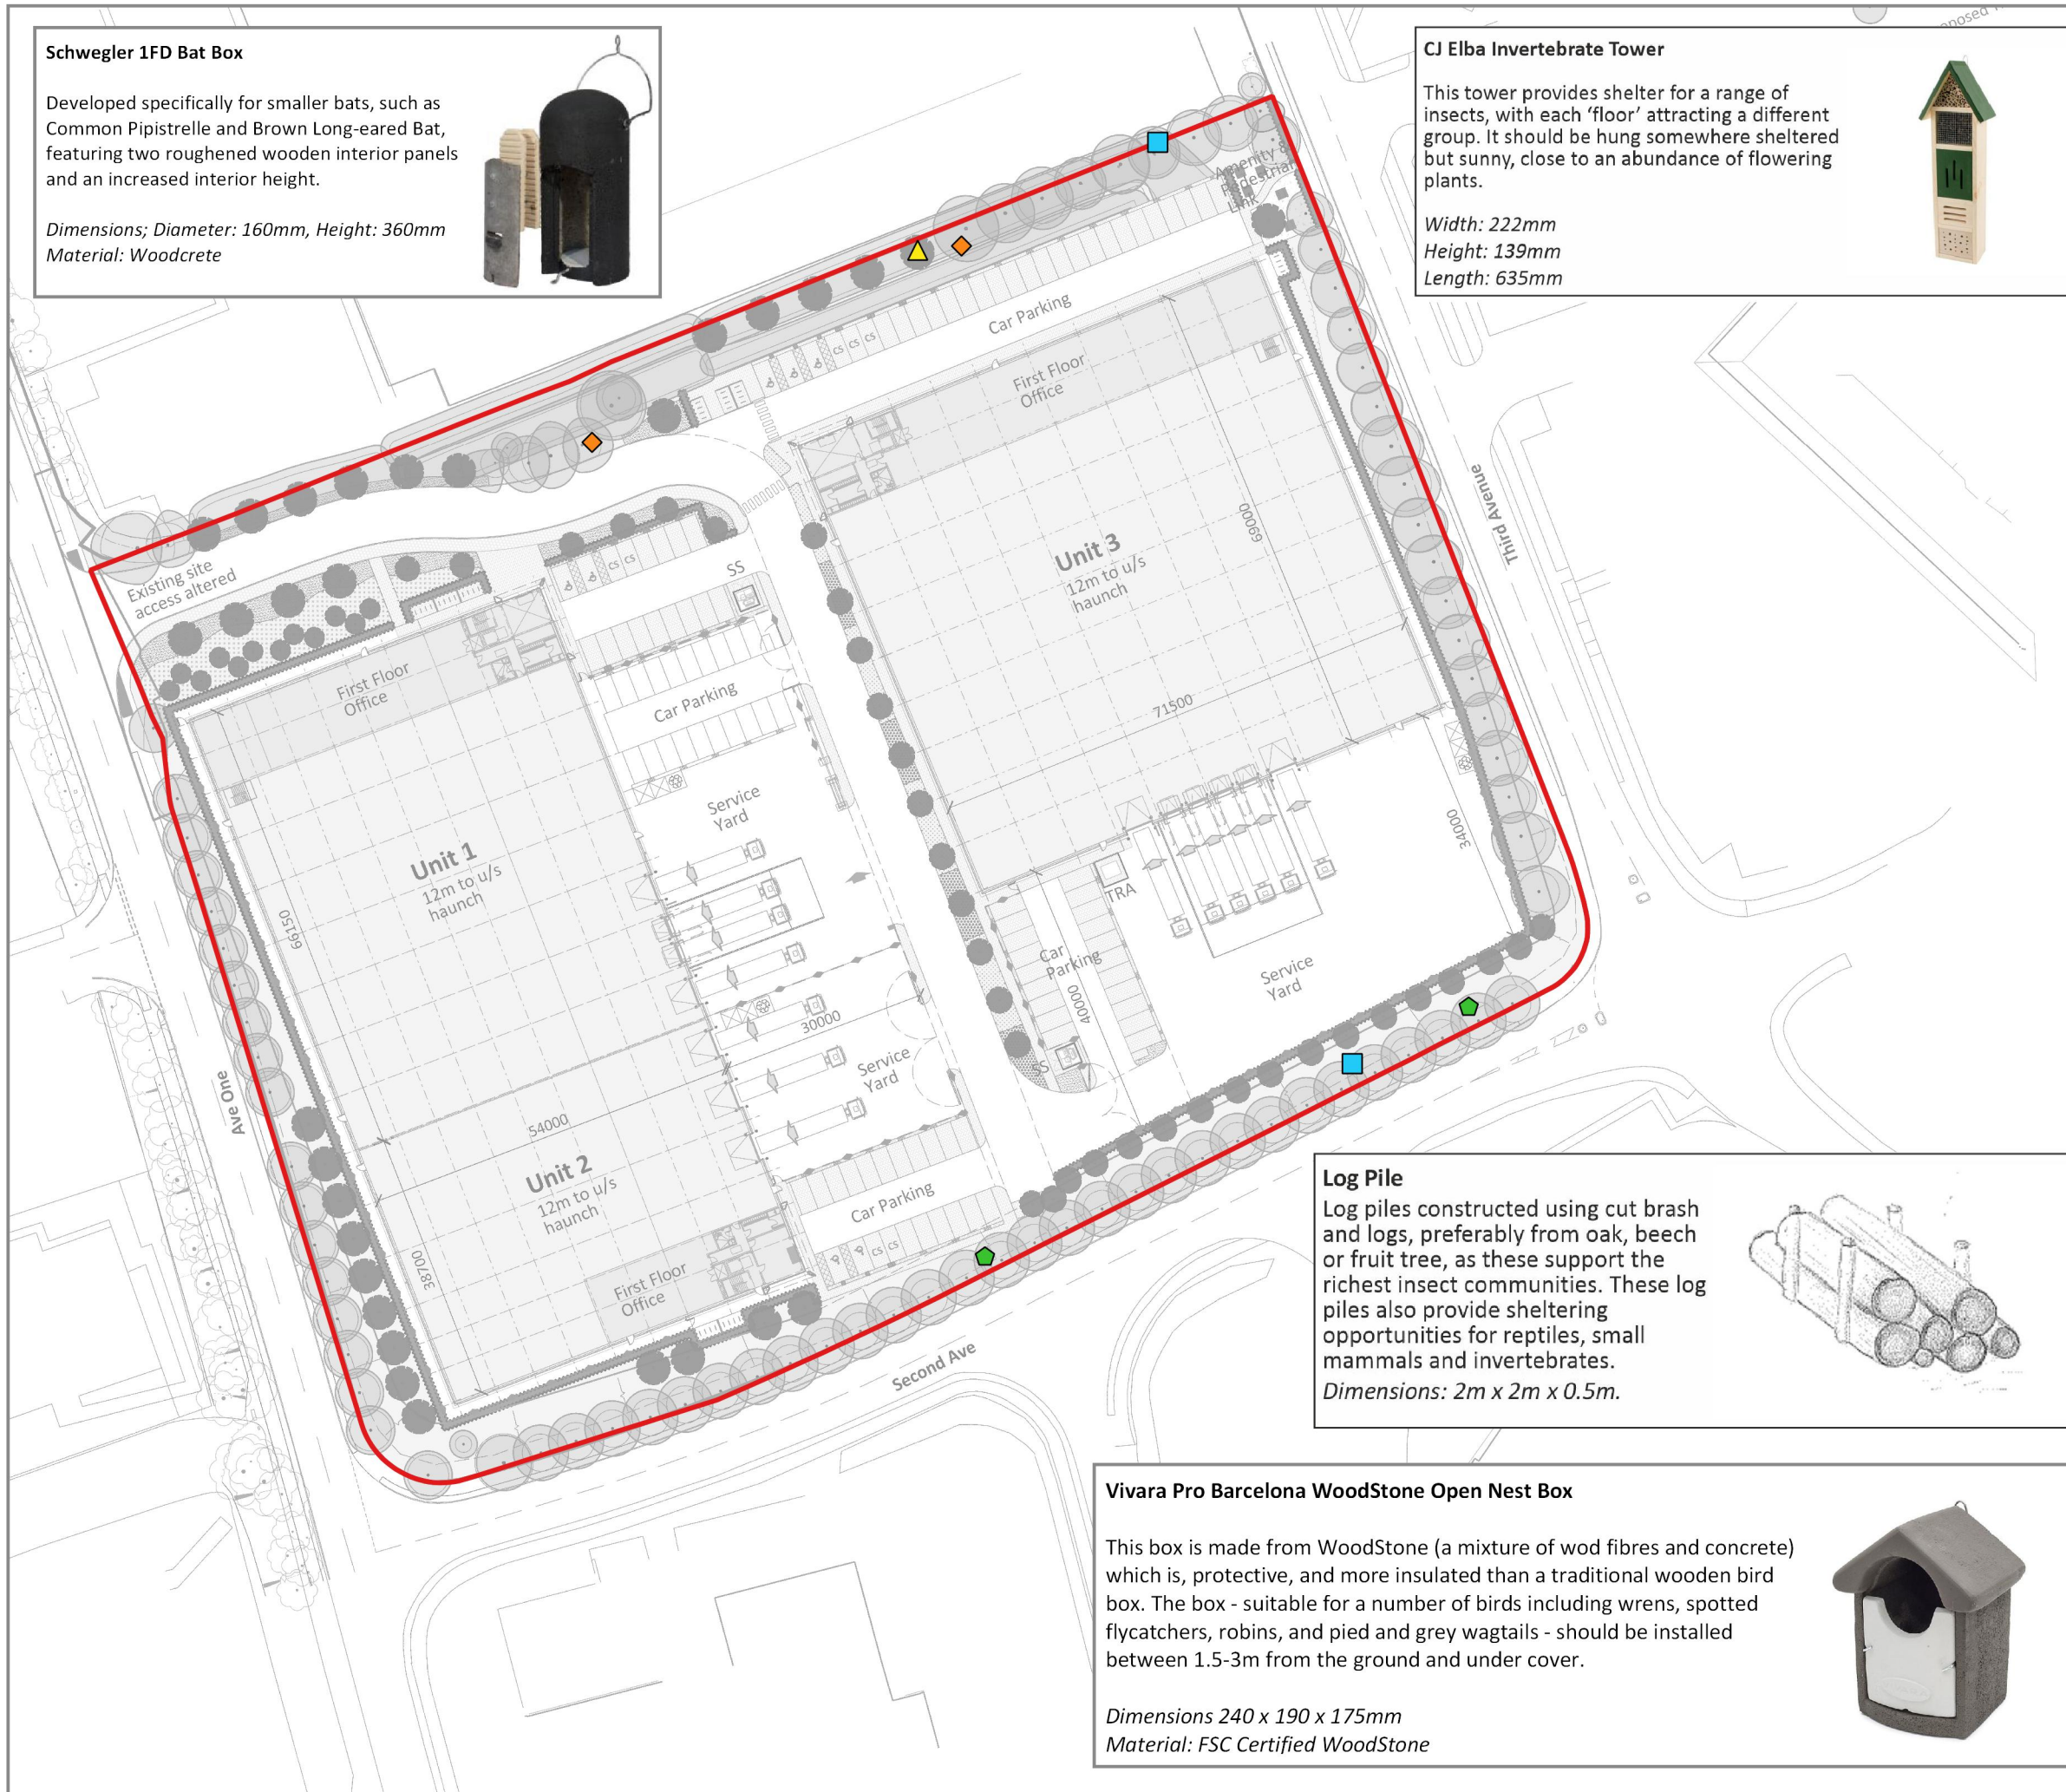

This tower provides shelter for a range of insects, with each 'floor' attracting a different group. It should be hung somewhere sheltered but sunny, close to an abundance of flowering plants.

Width: 222mm
Height: 139mm
Length: 635mm

Key:

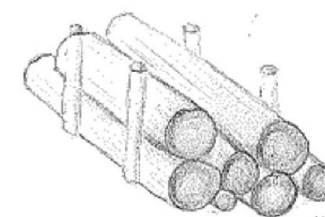

- Site Boundary
- CJ Elba Invertebrate Tower (or similar)
- Log Pile
- Schwegler 1FD Bat Box (or similar)
- Vivara WoodStone Open Nest Box (or similar)

Log Pile

Log piles constructed using cut brash and logs, preferably from oak, beech or fruit tree, as these support the richest insect communities. These log piles also provide sheltering opportunities for reptiles, small mammals and invertebrates.

Dimensions: 2m x 2m x 0.5m.

Vivara Pro Barcelona WoodStone Open Nest Box

This box is made from WoodStone (a mixture of wood fibres and concrete) which is, protective, and more insulated than a traditional wooden bird box. The box - suitable for a number of birds including wrens, spotted flycatchers, robins, and pied and grey wagtails - should be installed between 1.5-3m from the ground and under cover.

Dimensions 240 x 190 x 175mm
Material: FSC Certified WoodStone
