Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).
Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

I have recently purchased 31 chiltern road. It is in need of substantial restoration and the trees are all overgrown and need a mix of felling (mainly lelandii) and cutting back to give light to the garden. There are trees in the middle of the garden which need removing to allow for space for a family garden.
I am happy to replant trees round the edge of the property if required.
None of the trees have a TPO.

Referring to the diagram attached:

1) lelandii: fell due to excessive shading
2) lelandii: fell due to excessive shading
3) lelandii: fell due to excessive shading
4) Horse Chestnut: cut back crown due to excessive shading
5) Holly: remove as it takes up a large part of the garden
6) Ash (i think), possible deseased, but takes up too much space in the garden
7) lelandii: fell due to excessive shading
8) apple: fell due to old age, not fruiting, in the middle of the lawn
9) cherry: fell due to being in the middle of the lawn
10) apple: fell due to old age, not fruiting, in the middle of the lawn
11) yew: cut crown back
12) magnolia: fell due to overgrowth into lawn
13) yew: cut crown back
14) yew: cut crown back
