Re: 27 meadow way lechworth.
X1 Italian cypress.
This tree is naturally a tall (leggy) type of cypress. It is very close to the property and the root system is now lifting and causing damage to the fence and patio.
It is in my opinion the tree is a potential danger considering its close proximity ti the building. I recommend the tree is removed and the stump ground out.
A more suitable species in a more suitable space to replace it
