4 King James Way
ROYSTON, SG8 7EF

Dear Sirs,

Thank you for your letter informing me of the proposed plan in King James Way.

I am totally opposed to it. My house is almost opposite. There is a sharp bend and cars chase around that corner. Cars leaving my drive have to be "very" alert and carefully edge out - slowly. It's a death-trap - ~~there~~ will be a accident - be warned!

also, what happened to "eco-friendly?" We get bats, owls and many other bird species and muntjac!! You will kill our wildlife.

The trees in this road are protected and to get one cut down I need permission. Even if you leave them standing but cut them right back we will lose our wildlife. You will disturb it.

There needs to be a full-scale archaeological dig as the ancient Parish church is so near.

Please do not develop this area.

Thanking you, Yours faithfully [REDACTED]
