Planning ref: 25/00652/LBC

Discharge of Condition 2

Date: 10/06/2025

Condition 2:

As set out in document entitled REF-03/25: Construction materials, the framing of the glazed infill and link hereby approved shall be constructed using slim profile aluminium powder-coated frames in matt black. The profiles of which shall be submitted to and approved in writing by the Local Planning Authority prior to the commencement of that part of the development hereby consented. Thereafter the framing shall be implemented in accordance with the approved details.

Examples of aluminium slim profile frames:

AG210 Features & Specs

AG210 products offer superior energy efficiency, combined with slimmer frames, than other metal windows on the market.

The AG210 is particularly suitable as an alternative or replacement of steel casement windows including W20, W30, W40, W50 and SMW.

With a choice of hinges, colours and A+10 rating as standard, our AG210 windows and doors are ideal for your property.
