NORTH HERTFORDSHIRE DISTRICT COUNCIL

Town and Country Planning Act 1990
Town and Country Planning (General Development Procedure) Order 2015

DECISION NOTICE

Correspondence Address:
Michael Easton
21 Shrubbery Grove
Royston
SG8 9LJ
United Kingdom

Applicant:
Hanson

PARTICULARS OF DEVELOPMENT

Application:	18/00329/FP
Proposal:	Erection of 3 x 4-bed and 3 x 3-bed dwellings following demolition of existing dwelling (as amended by plans received on 25 April 2018).
Location:	Mill Croft, Royston Road, Barkway, Royston, Hertfordshire, SG8 8BU
Plan Nos:	18/02B 18/04A Loc Plan 1803 1805 1806 1807 1827 001

PARTICULARS OF DECISION

In pursuance of its powers under the above Act and the associated Orders and Regulations, the Council hereby **GRANT PERMISSION** for the development proposed by you in your application received with sufficient particulars on 2 February 2018, subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

   Reason: To comply with the provisions of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out wholly in accordance with the details specified in the application and supporting approved documents and plans listed above.

   Reason:To ensure the development is carried out in accordance with details which form the basis of this grant of permission.

3. Prior to the first occupation of the development hereby permitted visibility splays shall be provided in full accordance with details indicated on the approved plan number LILL/18/02B. The splays shall thereafter be maintained at all times free from any obstruction between 600mm and 2m above the level of the adjacent carriageway.

   Reason: In the interests of highway safety.

4. Prior to the first occupation of the development hereby permitted the proposed highway and access works shallbe completed in accordance with the approved plan and retained thereafter for that specific use.

   Reason: In the interests of highway safety.

5. The development shall not begin until full details of all proposed construction vehicle access, movements, parking arrangements and wheel washing facilities have been submitted to and approved in writing by the Local Planning Authority. The relevant details should be submitted in the form of a Construction Management Plan and the approved details are to be implemented throughout the construction programme.

   Reason: To minimise danger, obstruction and inconvenience to user of the highway.

6. (a) No development approved by this permission shall be commenced prior to the submission to, and agreement of the Local Planning Authority of a written preliminary environmental risk assessment (Phase I) report containing a Conceptual Site Model that indicates sources, pathways and receptors. It should identify the current and past land uses of this site (and adjacent sites) with view to determining the presence of contamination likely to be harmful to human health and the built and natural environment.

   (b) If the Local Planning Authority is of the opinion that the report which discharges condition (a), above, indicates a reasonable likelihood of harmful contamination then no development approved by this permission shall be commenced until a Site Investigation (Phase II environmental risk assessment) report has been submitted to and approved by the Local Planning Authority which includes:

   (i) A full identification of the location and concentration of all pollutants on this site and the presence of relevant receptors, and;

   (ii) The results from the application of an appropriate risk assessment methodology

(c) No development approved by this permission (other than that necessary for the discharge of this condition) shall be commenced until a Remediation Method Statement report; if required as a result of (b), above; has been submitted to and approved by the Local Planning Authority.

(d) This site shall not be occupied, or brought into use, until:

(i) All works which form part of the Remediation Method Statement report pursuant to the discharge of condition (c) above have been fully completed and if required a formal agreement is submitted that commits to ongoing monitoring and/or maintenance of the remediation scheme.

(ii) A Remediation Verification Report confirming that the site is suitable for use has been submitted to, and agreed by, the Local Planning Authority.

(e) Any contamination, other than that reported by virtue of condition (a) and (b), encountered during the development of this site shall be brought to the attention of the Local Planning Authority as soon as practically possible; a scheme to render this contamination harmless shall be submitted to and agreed by, the Local Planning Authority and subsequently fully implemented prior to the occupation of this site.

Reason: To ensure that any contamination affecting the site is dealt with in a manner that safeguards human health, the built and natural environment and controlled waters.

7. Prior to occupation, each of the 6 dwellings shall incorporate an Electric Vehicle (EV) ready domestic charging point.

Reason: To contribute to the objective of providing a sustainable transport network and to provide the necessary infrastructure to help off-set the adverse impact of the operational phase of the development on local air quality.

8. No development shall commence until further details of the circulation route for refuse collection vehicles have been submitted to the local planning authority and approved in writing. The required details shall include a full construction specification for the route, and a plan defining the extent of the area to which that specification will be applied. No dwelling forming part of the development shall be occupied until the refuse vehicle circulation route has been laid out and constructed in accordance with the details thus approved, and thereafter the route shall be maintained in accordance with those details.

Reason - To facilitate refuse and recycling collections.

9. Details and/or samples of materials to be used on all external elevations and the roof of the development hereby permitted shall be submitted to and approved in writing by the Local Planning Authority before the development is commenced and the approved details shall be implemented on site.

Reason:To ensure that the development will have an acceptable appearance which does not detract from the appearance and character of the surrounding area.

10. Notwithstanding the indicative landscape details shown, full details of landscaping shall be submitted to and approved in writing by the local planning authority prior to any works to implement this permission commencing. These details will include:

a) which, if any, of the existing vegetation is to be removed and which is to be retained

b) what new trees, shrubs, hedges and grassed areas are to be planted, together with the species proposed and the size and density of planting

c) the location and type of any new walls, fences or other means of enclosure and any hardscaping proposed

d) details of any earthworks proposed

The agreed details shall be implemented in full prior to the occupation of the last dwelling.

Reason:To ensure the completed development makes a positive contribution to the locality as required by the NPPF.

11. The approved details of landscaping shall be carried out before the end of the first planting season following either the first occupation of any of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced during the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to vary or dispense with this requirement.

Reason:To safeguard and enhance the appearance of the completed development and the visual amenity of the locality.

12. None of the trees to be retained on the application site shall be felled, lopped, topped, uprooted, removed or otherwise destroyed or killed without the prior written agreement of the Local Planning Authority.

Reason:To safeguard and enhance the appearance of the completed development and the visual amenity of the locality.

13. Before the commencement of any other works on the site, trees to be retained shall be protected by the erection of temporary chestnut paling or chain link fencing of a minimum height of 1.2 metres on a scaffolding framework, located at the appropriate minimum distance from the tree trunk in accordance with Section 4.6 of BS5837:2012 'Trees in relation to design, demolition and construction - Recommendations, unless in any particular case the Local Planning Authority agrees to dispense with this requirement. The fencing shall be maintained intact for the duration of all engineering and building works. No building materials shall be stacked or mixed within 10 metres of the tree. No fires shall be lit where flames could extend to within 5 metres of the foliage, and no notices shall be attached to trees.

Reason:To prevent damage to or destruction of trees to be retained on the site in the interests of the appearance of the completed development and the visual amenity of the locality.

14. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended no development as set out in Classes A to E (inc) of Part 1 of Schedule 2 to the Order, (or any subsequent Statutory Instrument which revokes, amends and/or replaces those provisions) shall be carried out without first obtaining a specific planning permission from the Local Planning Authority.

    Reason: Given the nature of this development, the Local Planning Authority considers that development which would normally be "permitted development" should be retained within planning control in the interests of the character and amenities of the area.

15. Before the individual occupation of any of the dwellings hereby permitted, the associated car parking facilities (including the car port to plot 5) shown on the approved plan shall be marked out and made available, and shall thereafter be kept available solely for the parking of motor vehicles.

    Reason:To ensure the provision of satisfactory car parking facilities clear of the public highway to meet the needs of the development.

Proactive Statement:

Planning permission has been granted for this proposal. The Council acted proactively through positive engagement with the applicant during the determination process which led to improvements to the scheme. The Council has therefore acted proactively in line with the requirements of the Framework (paragraphs 186 and 187) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.

Informative/s:

1. Hertfordshire County Council (HCC) recommends inclusion of the following highway informative / advisory note (AN) to ensure that any works within the public highway are carried out in accordance with the provisions of the Highway Act 1980:

    AN) Extent of Highway: Information on obtaining the extent of public highway around the site can be obtained from the HCC website: www.hertfordshire.gov.uk/services/highways-roads-and-pavements/changes-to-your-road/extent-of-highways.aspx.

    AN) Construction standards for works within the highway: The applicant is advised that in order to comply with this permission it will be necessary for the developer of the site to enter into an agreement with Hertfordshire County Council as Highway Authority under Section 278 of the Highways Act 1980 to ensure the satisfactory completion of the access and associated road improvements. The construction of such works must be undertaken to the satisfaction and specification of the

Highway Authority, and by a contractor who is authorised to work in the public highway. Before works commence the applicant will need to apply to the Highway Authority to obtain their permission and requirements. Further information is available via the website https://www.hertfordshire.gov.uk/services/highways-roads-and-pavements/business-and-developer-information/development-management/highways-development-management.aspx or by telephoning 0300 1234047.

2. 1) EV Charging Point Specification:
Each charging point shall be installed by an appropriately certified electrician/electrical contractor in accordance with the following specification. The necessary certification of electrical installation should be submitted as evidence of appropriate installation to meet the requirements of Part P of the most current Building Regulations.

Cable and circuitry ratings should be of adequate size to ensure a minimum continuous current demand for the vehicle of 16A and a maximum demand of 32A (which is recommended for Eco developments)

o A separate dedicated circuit protected by an RBCO should be provided from the main distribution board, to a suitably enclosed termination point within a garage or an accessible enclosed termination point for future connection to an external charge point.

o The electrical circuit shall comply with the Electrical requirements of BS7671: 2008 as well as conform to the IET code of practice on Electric Vehicle Charging Equipment installation 2012 ISBN 978-1-84919-515-7 (PDF).
o If installed in a garage all conductive surfaces should be protected by supplementary protective equipotential bonding. For vehicle connecting points installed such that the vehicle can only be charged within the building, e.g. in a garage with a (non-extended) tethered lead, the PME earth may be used. For external installations the risk assessment outlined in the IET code of practice must be adopted, and may require additional earth stake or mat for the EV charging circuit. This should be installed as part of the EV ready installation to avoid significant on cost later.
o A list of authorised installers (for the Government's Electric Vehicle Homecharge Scheme) can be found at
https://www.gov.uk/government/organisations/office-for-low-emission-vehicles

2) The above condition is considered relevant and reasonable for the following reasons:

o Paragraph 120 of the NPPF which refers to the effects (including cumulative effects) of pollution on health, the natural environment or general amenity.
o The aim of Section 4 'promoting sustainable development' of the NPPF, which includes in paragraph 35 'developments should be designed where practical to incorporate facilities for charging plug-in and other ultra low emission vehicles'.
o HCC Local Transport Plan (LTP3) 2011-2031 which includes an aim 'to reduce transport's own contribution to greenhouse gas emissions and improve its resilience'.

o It is consistent with the approach specified in the NHDC Air Quality Planning Guidance Document, which is referenced within the current consultation version of the Local Plan.

o The proposed plan for the development includes garages for two properties and dedicated parking spaces located immediately neighbouring the other four properties. This means that the proposed development is suited to the incorporation of EV charging infrastructure. The assessment of reasonable is also based on the approximate cost for installing appropriate cabling to a new build property would be expected to be approximately £300.00 per property and installation of a wall-mounted point approximately £300.00 per property.

NOTES

1 **Failure to satisfy conditions may invalidate this permission and/or result in enforcement action. Particular attention should be paid to the requirements of any condition in bold.**

2 Circular 04/2008 (Planning Related Fees) states that where an application is made under Article 21 of the Town and Country Planning (General Development Procedure) Order 1995, a fee will be payable for any consent, agreement or approval required by condition or limitation attached to the grant of planning permission.

3 The fee is £116 per request or £34 where the permission relates to an extension or alteration to a dwellinghouse or other development in the curtilage of the dwellinghouse. No fee is required for applications resulting from a condition removing "permitted development rights".

The request can be informal through the submission of a letter or plans, or formal through the completion of an application form and the submission of plans. Any number of conditions may be included on a single request. The form is available on the Council's website:

www.north-herts.gov.uk/home/planning/planning-applications/submit-planning-application

4 If the development hereby permitted is one that will require a new postal address/es then please contact the Council's **street naming and numbering service** on 01462 474431 or email SNN@north-herts.gov.uk who will advise you on how to apply for the new address/es.

Any proposed sales and/or marketing name to be adopted by the developer should be forwarded to the **street naming and numbering service,** prior to any publication of the site details and sales information.

5 If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.

Appeals can be made online at: https://www.gov.uk/planning-inspectorate. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

6 **Purchase Notices**

If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council

(District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

7 The District Council and County Highway Authority wish to ensure that, in the implementation of the development, hereby approved, the highway verge adjacent to the property is not damaged or does not become unsightly due to the stationing of skips, parking of vehicles, storing of building materials etc thereon. Your attention is, therefore, drawn to the provisions of Section 131 of the Highways Act 1980 and to the Hertfordshire County Council Bylaws 1955 (specifically relating to grass margins and verges in Letchworth Garden City) by virtue of which such actions, unless authorised by the prior grant of a licence, constitute a prosecutable offence. Persons responsible for undertaking the development and any associated works are, therefore, strongly encouraged to take appropriate steps to ensure that no breach of the said legislation occurs during the course of such activities. In the event of any damage being caused it will be expected that suitable reinstatement is undertaken upon completion of the development. Failure to do so could also result in legal action being pursued. To obtain information regarding the issue of licences, contact Hertfordshire Highways, Hertfordshire County Council, County Hall, Pegs Lane, Hertford, SG138DQ or telephone 0300 1234 047.

THIS PLANNING PERMISSION DOES NOT CONSTITUTE APPROVAL UNDER BUILDING REGULATIONS AND IS NOT A LISTED BUILDING CONSENT OR CONSERVATION AREA CONSENT. IT DOES NOT CONVEY ANY APPROVAL OR CONSENT WHICH MAY BE REQUIRED UNDER ANY ENACTMENT, BYE-LAW, ORDER OR REGULATION OTHER THAN SECTION 57 OF THE TOWN AND COUNTRY PLANNING ACT 1990.

Consent for these works may be required from the Letchworth Garden City Heritage Foundation (www.letchworth.com/heritage-foundation) under the Scheme of Management or leasehold covenants. If you do not already have their approval, you are advised to contact the Heritage Foundation on home@letchworth.com or 01462 476017 to confirm whether you also need to submit an application to them.
