## Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

### Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

This Application covers two operations.

1. To replace existing post and wire fence concealed within the existing hedge row.

there is a mature hedge that encompasses the rear garden of the property. Within the hedge was a delapidated fence consisting of wooden posts and wire mesh.

The delapidated fence has been removed and replaced with a post and mesh fence also sited within the hedge row. We have used " stock fence wire" to enable the free movement of wildlife (rodents, hedgehogs etc) but also safely containing our dog and providing a measure of security to the property.

The outer of the hedge was cut back to allow the removal and replacement of the fence.

As this work to the fence was like for like replacement / repair i believed that there was no requirement for planning permission.

When the hedge has fully grown back the fence will ( as before ) be invisible.

please find attached plans and images of the scope of the works.

2. Installation of a 1000 ltr Bunded Compact Domestic Heating Oil Tank.

to install a tank to supply domestic heating oil to the property's boiler.

Tank is installed to regulation, 0.8m from any building and not adjacent to a property boundary. Sited behind an existing Trellis fence and screened with Woven Hazel Screening Panels. The tank is completely invisible from any angle. (please see attached plan and images).

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

#### Reason biodiversity net gain does not apply:

Retrospective planning permission

#### Please justify the reason why biodiversity net gain does not apply:

Replacement Fence and installation of Heating oil tank.

Note: Please read the help text for further information why developments may be exempt or not in scope.
