Dear Alex,

**Re: Details reserved by Condition 3A (Archaeological WSI) of planning permission reference 23/01163/FP granted on 19.06.2024. | Moonshine Southern Green
Rushden Buntingford Hertfordshire SG9 0SX**

ARCHAEOLOGICAL IMPLICATIONS

Thank you for consulting me on the above application for a discharge of condition.

We can recommend that the archaeological WSI which has been submitted is approved if the applicant undertakes to provide c.v.'s of the onsite archaeological staff for approval by this office BEFORE onsite archaeological works commence.

When this is agreed, I will be able to advise partial discharge of condition 3 (i.e. 3 A) Parts 1 and 6), sufficient to allow the archaeological investigation to go ahead. Please note that, as further phases of archaeological work may be required (paras 2.4, 4.5), for which an additional method statement will be needed as an addendum to this WSI, the condition should not be fully discharged at this time.

Please also note that I will only be able to recommend discharge of the remaining archaeological conditions (3B and 3C) when all archaeological work has been completed in accordance with the WSI, an appropriate report of a satisfactory standard has been submitted, and provision has been made for further analysis and publication if required.

Please do not hesitate to contact me should you require any further information or clarification.

Yours sincerely,

Andy Instone
