Dear Sir / Madam,

**Consultation - Statutory Undertakers : Upgrade works to existing overhead electricity line
Crouchgreen Wood, Three Houses Lane, Codicote, Hertfordshire, SG4 8TB**

I am writing in relation to the document received on 15 October 2024 outlining the Eastern Power Networks proposal to upgrade the overhead electricity line near Three Houses Lane, Codicote. The works will add a third conductor line to the existing.

I understand that the document is a notification only, and is not a request for pre-application advice, a planning application, or a request for a certificate of lawfulness. The form however states that the LPA should confirm whether an environmental impact assessment should be undertaken.

The Local Planning Authority acknowledge your intention to carry out works to the site.

Having considered the information provided, the Local Planning Authority raise no objections to the proposed works, and do not consider that an environmental impact assessment should be undertaken as the impacts would be minimal. However, please note that this is not a formal decision of the Council and it is recommended that you apply for a certificate of lawfulness if you would like a formal decision.

Yours faithfully

Shaun Greaves
Development and Conservation Manager
