Why do you consider that a Lawful Development Certificate should be granted for this proposal?

We believe the proposal is in line with the Town and Country Planning (General Permitted Development) Order 2015, Schedule 2, Part 1 Class C – ‘other alterations to the roof of a dwelling house’

The proposed 5NO rooflights to the front and rear roof slopes come under Class C; the legislation of relevance:

“C.1 Development is not permitted by Class C if—

(a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use);

(b) the alteration would protrude more than 0.15 metres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof;

(c) it would result in the highest part of the alteration being higher than the highest part of the original roof; or

(d) it would consist of or include —

(i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or

(ii) the installation, alteration or replacement of solar photovoltaics or solar thermal Equipment”.

The proposed roof lights will not project beyond the plane of the roof slope by more than 0.15m when closed, to therefore not conflict with criterion (b). The proposal will also not conflict with criterions (a), (c) and (d), as they are not of relevance.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
