

Good afternoon

Having reviewed this there is a few matters regarding this we would like to question.

Bin presentation, the bins will have to be presented on Ashwell Street for all four properties which for the furthest seems some distance away, the roads I imagine would be private and too tight for our vehicles to traverse down and nor would the operatives walk down the lane to collect the bins, the preferred collection point would be Ashwell Street for our teams.

Thank you.

Kind regards

Martin Trotter
