TREE REPORT

Address

Treetops,
Charlton Road,
Charlton,
Hitchin
SG5 2AE

Assessment notes

We were requested to visit the above property to remove a group of cypress trees forming a large hedge to ground level. (G1) The owner would like the hedge chipped and all chippings to be left on site as agreed by the farmer.

The reason the owner wishes to carry out the above work is because the hedge causes excessive shading and low ecological value. The customer wishes to replant with a mixed native hedgerow.
